CAPTAIN REICHAARDT TALKS.

Statement of the Chairman of the
City Executive Committee.

AS TO WARD PRIMARY MEETINGS.

The Chairman Says the Places for Hold-
ing Them Were Not Designated
by Him.

A Post-reporter called on Captain F. A. Reichardt yesterday and asked him if he had anything to say, as chairman of the city democratic executive committee, in regard to the resolutions adopted by Judge Henry Brashear's friends and published in yesterday's Post.

"Yes, I have something to say," he replied. "I think the resolutions demand a reply from me, and I have prepared a statement, which is about all I have to say on the subject."

The following is the statement referred to:

To the Democratic Voters of Houston:

In the process of today a set of resolutions apparently promulgated by the supporters of Judge Henry Brashear's candidacy for the mayoralty, in which several statements are made that do injustice to me and the members of the city democratic executive committee.

It is a fact that a petition was presented to the executive committee, and that the signatures to same were said to number over 200. This petition asked that the committee should change the night primaries as ordered to day primaries, but if this was not done the day of holding the primaries should be changed from Saturday night to some other night, for the reason that the first named night would, on account of business, prevent many persons from attending who otherwise would participate. This petition was read and the decision of the committee was in favor of a change of date from Saturday night, March 12, to Thursday night, March 13, in deference, I believe, to the prayer of the petition that the date should be changed.

The act of the legislature in reference to the holding of day primaries provides no machinery for such primaries—no means to pay judges, have tickets prepared, rent rooms, or anything else. Beyond this it is the opinion of persons competent to speak on the law regulating day primaries is of no account, because an offense against the election regulations to be a crime in the eyes of the law must be committed at an election to select officers, whereas the primaries only select candidates and fix no responsibility beyond the nomination, because the crudeness of the law is interpreted and I believe is of no avail.

The resolutions state that the chairman of the executive committee "may himself name the place where the primaries shall be held in the various wards of the city. This is an error, inasmuch as at the first meeting of my committee I requested members of the various wards to select a place as large and as comfortable as could be procured in their respective precincts and report their selection to me in order that I could designate these places in my call for the general primaries. This, I believe, has been the custom for a number of years by both the chairman of the county and city executive committees, and is altogether regular and in order, and at no previous time has this privilege of the committee been questioned. In fact, it is the absolute duty of the committee to do so, to have no harm as thereby coming to any one. The places so far named were selected by the members of the various wards and not by me. Again, it has for a number of years been the custom for the members of the committee to select the place named if there be two of the executive committee representing the various precincts to make all preparations for the holding of the primaries and to call the primary in order for the selection of a temporary chairman only. Such have been my instructions to my committee, and therefore in no sense of the word can it be said that a member of the executive committee presides at the meeting, unless it should so happen that the voters present elect him for that duty. Again, I venture the assertion, and do not believe it can be successfully controverted, that there does not exist a single instance of where the city primaries last held, elected a president to serve for two years. This I admit was in former years the practice, but I do not say, and correctly so, some years ago, I say correctly so, because, in my opinion, no primary gathering has the right to elect a president to the primary to be held several years hence who shall be its presiding officer. Only where an organization is elected by the actual membership roll can such action be taken and be binding.

The resolutions further state that my committee "has ordered the city police to stand guard in the primary hall," etc. In view of the number of unwarranted assertions contained in the resolutions, it does not surprise me that they should find fault with my committee in our endeavors to surround the primaries with every safeguard for the maintenance of peace and prevention of injustice to any one. It appears that discontent mainly prevails among the supporters of Judge Henry Brashear at the action taken by the executive committee, leaving the inference that the opponent of Judge Brashear favors the night primaries. The facts are that before the first meeting of the executive committee, both Judge Brashear and Mr. H. B. Rice emphatically expressed themselves to me as favoring all day primaries, and expressed the opinion that the executive committee would so decide. But the democratic party of Houston, through its representatives, the executive committee, have twice elected themselves in favor of night primaries, and the supporters of Mr. Rice, however great their disappointment may be, quietly acquiesce and loyally stand by their party. Respectfully,
F. A. Reichardt.
